### **Permission to Administer OTC Medication to Preschoolers with Fever Above 102 Degrees**

Student Name \_\_\_\_\_ DOB \_\_\_\_\_

Allergies \_\_\_\_\_

Dear Parent/Guardian:

Our School Physician, William Madison DO, has authorized the administration of Children's Tylenol or Children's Motrin to students in preschool with a fever above 102 degrees. We must have parental/guardian written permission in order to give any medication. No verbal permission can be accepted. If you give permission, please sign and return this form.

Thank you,  
Nurse Lori

---

I give permission for the School Nurse to administer the age/weight-appropriate dose of Children's Tylenol or Children's Motrin to my son/daughter at school for a fever above 102 degrees. I understand that I will be notified and my son/daughter will still need to come home from school, even if medication for fever is given.
